ORDER:

In the letter read above, the Chief Engineer, Minor Irrigation, Hyderabad has submitted an estimate for Rs.493.60 lakhs for the work “Repairs to Large Tank near Jamalapuram (V), Yerrupalem (M), Khammam District” stating that the Jamalapuram Tank is intended to irrigate an ayacut of 750 Acres. The tank bund itself is a road connecting Jamalapuram Village and Remidicharla Village. There is no other road except this. Due to heavy cyclonic rains during Laila and Jal cyclones the tank bund is heavily damaged and upstream slopes of bund are slipped at different locations. Due to this, connectivity is closed in between the above two villages. Present condition of bund is in dangerous position and there is threat of breach at any time. This tank is only source for agricultural and drinking water for human beings as well for cattle in and around Jamalapuram Village. Therefore it is proposed to take up strengthening and widening of tank bund, construction of CC guide walls on U/s slopes of tank bund to avoid further slips of U/s slips and to have sufficient top width of bund to 10 m for movement of vehicles and for tourism development, Gravel topping on top of bund is proposed for movement of vehicles and repairs to sluices including shuttering arrangements. Further, the Chief Engineer, Minor Irrigation, Hyderabad has stated that an amount of Rs.44,520/- for the component of jungle clearance could be taken up under MGNREGP. Hence he has requested to accord administrative approval for the above work under Normal State Plan.
